Ref: 6922794768086

Vention ALHSE 4K HD HDMI cable 0.75m (blue)

Get exceptional image quality with Vention. The HDMI cable offers 4K@60 resolution, which, combined with a bandwidth of 18 Gbps, guarantees smooth video transmission for incredible color depth and contrast. Made of high-quality materials, it is ready for heavy use, and its gold-plated connectors guarantee excellent signal quality.

Cinematic experience at home

Now you can enjoy cinematic effects without getting up from your comfortable chair! The Vention cable offers 4K@60 Hz resolution, making every detail clear and realistic. The 18 Gbps bandwidth guarantees smooth video transmission without any lag or interference, as well as amazing color and contrast depth. What's more, it also supports 3D effect, allowing you to experience a unique experience while watching movies and playing games.

High-quality workmanship

The cable uses durable PVC plastic and aluminum alloy, which is distinguished by its high wear resistance. Its gold-plated connectors ensure excellent signal quality, eliminating any interference and distortion. Thanks to its wide compatibility, you will successfully connect it to a TV, monitor, console or projector.
