

## DisplayPort 1.2 Cable Vention HACBJ 5m, 4K 60Hz (Black)

DisplayPort Cable 5m Vention HACBJ (Black)

Ref: 6922794733312

Vention HACBJ DisplayPort cable (5m, black)

Vention's DisplayPort cable combines advanced 4K HD video transmission technology and perfect audio-video synchronization. With support for 3840 x 2160@60Hz resolution, compatibility with DP graphics cards that transmit 4K video, and multi-screen expansion options, the product is ideal for home theater enthusiasts, gamers and professionals. High-quality workmanship with a tin-plated copper conductor and an aluminum foil shield and braided metal sheath ensures distortion-free image stability.

### Stunning picture quality

Planning to host a movie night with your loved ones? The Vention HACBJ cable provides exceptional 4K HD picture quality, transmitting details in 3840 x 2160 resolution at a refresh rate of 60Hz. So you can enjoy crystal clear images and perfect audio synchronization while watching movies, playing games or experimenting with graphics redesigns.

### Two display modes

Enjoy 2 display modes. The Vention cable offers COPY mode, which allows you to display the same image on different devices, which is ideal for presentations or movie screenings. EXTENSION MODE, on the other hand, allows you to display different images on individual screens, perfect for multitasking computer users.

### High-end performance

The cable's construction is designed for long-lasting performance. The use of a tin-plated copper conductor combined with an aluminum foil shield and braided metal sheath helped ensure excellent conductivity and protect the signal from interference. As a result, the image is always stable and free of distortion.
