

## Multifunctional Crimping Tool Vention KEDB0 Black

Multifunctional Crimping Tool Vention KEDB0 Black

Ref: 6922794753914

Vention KEDB0 multifunction crimping tool (black).

The Vention multifunction tool is an indispensable accessory for those who work with ICT and telecommunications networks on a daily basis. Not only do they allow you to securely crimp RJ45 cable connectors, but also to remove insulation and precisely cut wires. Great for 8P, 6P and 4P modular connectors. Made of high-carbon steel with high strength, the tool ensures durability and reliability during any job.

One tool, multiple applications

Whether you're dealing with network cables, telephone cables or need to cut a cable with precision, this tool will work well in many situations. You'll use it to crimp the connectors of network cables (8P) and telephone cables (6P and 4P). It also allows you to remove insulation and accurately cut both round and flat cables. With it, you don't need several tools to do complicated cable assembly work.
