

Keystone Jack Coupler Cat.6 UTP Vention IPGB0, black

Keystone Jack Cat.6 UTP Vention IPGB0, black

Ref: 6922794743274

Cat. 6 RJ45 Cable Connector

Thanks to this connector, users can easily and quickly connect two Cat. 6 RJ45 Ethernet cables together. It's an excellent solution for those who need to extend their existing connection or customize the cable length to their individual needs.

Stable Transmission

The key feature of a good connector is its ability to provide stable data transmission. Our product ensures a reliable and consistent connection, so you can be confident that your data will be transmitted without disruptions.

Gold-Plated Contacts

Gold-plated contacts are not only an aesthetic addition but, above all, a guarantee of better conductivity. Thanks to them, the Vention IPGB0 connector ensures even more efficient and fast data transmission.
