

Photo studio Puluz PKT3101B LED 25cm

Photo studio Puluz PKT3101B LED 25cm

Ref: 5907489605618

Puluz photo studio LED

The product is designed for photography enthusiasts, artists, online retailers, professionals and for marketing purposes. It will come in handy when taking pictures of small objects, for example, jewelry or toys. In addition, the set includes colorful double-sided backgrounds that you will use for taking photos.

Foldable design

Thanks to the PKT3101B's portable foldable design, you can take it anywhere. The tent will not take up much space so storing it will not be a problem either. Assembly is simple and will only take a moment, so you can use it almost anywhere.

Forget about time-consuming photo editing

The lamp eliminates shadow problems, sharpens the contours of objects and reduces time-consuming photo editing. Ideal for photographing jewelry, cosmetics, model cars, gadgets, etc. The lamp is powered by micro USB port from your PC or powerbank.

Easy to use

The PKT3101B is extremely easy to use. There are 3 buttons on the tent, with which you can turn on/off the device or adjust the brightness. To connect the studio to the power, just use the USB cable to connect it to your PC, laptop, powerbank or charger.

Thoughtful design

The inner walls of the photo studio are finished with a material that reflects the light of the LED lamp located on top. Thanks to this, the light reaches every part of the photo studio greatly improving the quality of the photos, which appear three-dimensional. Thanks to the hole located on the upper wall, you can also take pictures from a top perspective.
