TWS QCY T27 headphones (black)

The QCY T27 are wireless headphones that are perfect for everyday use. They offer richly detailed sound that will let you rediscover your favorite music tracks. Built-in microphones and ENC technology ensure clear conversations, while the Bluetooth 5.3 connection allows you to listen to music without delay. Their runtime reaches 32 hours with a charging case, and intuitive touchpads make it easy for you to manage your most important functions. IPX4 water resistance makes them ready to accompany you in any conditions.

Let yourself be invited to a musical feast

Get even more enjoyment from listening to your favorite songs! The headphones have been carefully tuned by Helo's sound expert, ensuring powerful bass and crystal clear treble. This allows you to fully immerse yourself in the sounds of music, discovering details you haven't heard before.

Up to 32 hours of operation

Are you on your way to work? Are you facing a multi-hour plane ride? Or are you on a long walk? QCY T27 are ready to accompany you anywhere! The headphones allow you to make phone calls for 3.5 hours or up to 8 hours of music playback. A charging case is included so you can enjoy reliable headphone performance for up to 32 hours.

Lag-free sound

The headphones feature the latest Bluetooth 5.3 chip, which is responsible for a more stable and faster connection to the selected device at a distance of up to 10 meters. It also provides an exceptionally low latency of just 0.068 seconds, which translates into perfect synchronization of audio and video. Thanks to this, no opponent will miss your attention anymore, and you will gain another victory!

Clear sound during conversations

Now you can talk freely on the phone, no matter where you are. The built-in microphones reliably record every word you say. The headphones also support ENC technology effectively eliminates ambient noise, focusing only on your voice. So you can rest assured that your interlocutors will hear you clearly, no matter where you are.

Perfectly fitted to the ear

The specially designed design makes the headphones fit perfectly to the shape of your ear for the comfort you dream of. One earphone weighs only 4.4 grams, so you won't feel their presence during prolonged music listening! They're also IPX4 waterproof, which means they're resistant to sweat and rain. So you don't have to worry about their condition during an intense workout or unexpected rain!

More from the QCY App

Want to gain even more capabilities? Install the QCY app - you'll find it in both the Google Play store and the App Store! It will give you access to a number of interesting features that will help you personalize your headphones. The app will allow you to change the Equalizer settings, customize the functions of the touch panels, control the charge status, locate the headphones and much more.
