Computer Fan Set ARGB Darkflash DR12 Pro 5in1 120x120 (black)

Ref: 6926170074662

5in1 Darkflash DR12 Pro ARGB Illuminated Fan Set

How to easily provide your PC with effective cooling and unique style? Just use the 120mm DR12 Pro fans! The configurable, colourful ARGB backlighting will make your hardware look truly fantastic. Easy to install and compatible with Asus Aura Sync - they are sure to meet the expectations of even the most demanding users. The set includes 5 fans, as well as a practical remote control for convenient remote control of your devices.

Efficient cooling - quiet operation

The 120 mm fans fit perfectly into most computers. You won't have to worry about irritation or noise. And you don't have to worry about annoying noise. Despite a speed of up to 1200 rpm, the fans are extremely quiet - their noise level does not exceed 16 dB. This is made possible by rubber pads and specially designed hydraulic bearings. Darkflash ensures optimum cooling and unparalleled user comfort.

Gaming character

ARGB backlighting will give your PC an original gaming character. The dual ARGB rings guarantee an amazing effect and can perfectly complement your hardware. Moreover, the carefully thought-out design of the fans ensures that the light they generate impresses with its brightness and vivid colours.

Remote control - play with colours

The included wireless remote control allows you to control the fans remotely. Among other things, you can use it to switch the devices on and off, adjust the colours, and choose from available lighting modes such as Star night, Rainbow, Lightning and Breathing. Discover new possibilities, enjoy amazing lighting effects and make your computer an eye-catcher!
