

## Computer Fan set Darkflash S100 5IN1 White

Computer Fan set Darkflash S100 5IN1 White

Ref: 4710343793267

### Darkflash S100 5IN1 White Computer Fan Kit

The Darkflash S100 fans, designed with precision and innovation, are an excellent choice for users seeking performance, durability, and quiet operation. Equipped with advanced FDB Hydro Bearing, which provides a lifespan of up to 100,000 hours, and a five-blade rotor, these fans offer exceptional cooling performance while maintaining minimal noise levels. Additionally, their unique square design, along with shock-absorbing rubber pads, ensures optimal airflow and reduces resonance.

### Exceptional Cooling Performance

The Darkflash S100 fans feature an impressive rotational speed ranging from  $600 \pm 200$  to  $1800 \pm 10\%$  RPM, allowing for efficient cooling of computer components in any conditions. With an airflow of 76 CFM combined with static pressure of 2.3mmH<sub>2</sub>O, they provide optimal air circulation, which is crucial for maintaining low temperatures inside the case.

### Quiet Operation

One of the main advantages of Darkflash S100 fans is their quiet operation, with a maximum noise level of only 25.7dB. Thanks to the use of eight shock-absorbing rubber pads, these fans significantly reduce resonance and vibrations, translating into user comfort, especially in noise-sensitive environments such as home offices or gaming rooms.

### Durability and Reliability

The durability of Darkflash S100 fans is unparalleled, as evidenced by the Mean Time To Failure (MTTF) of 100,000 hours. This is the result of using advanced FDB Hydro Bearing, which not only ensures a long lifespan but also minimizes friction and wear, guaranteeing reliability for years of use.

### Additional Benefits

These fans, with dimensions of 120 x 120 x 25mm, fit most standard cases, making them versatile in application. Additionally, their low current intensity (120±20% mA) makes them energy-efficient, which is essential for extended computer use.

### Specifications:

Brand Darkflash  
Model S100  
Dimensions 120 x 120 x 25mm  
Fan Speed 600 ± 200 - 1800 ± 10% RPM  
Noise Level max. 25.7dB  
Airflow 76 CFM  
Static Pressure 2.3mmH<sub>2</sub>O  
MTTF 100,000 hours  
Bearing Type FDB Hydro Bearing  
Current Intensity 120 ± 20% mA
