

Enclosure SDD M.2 Orico, NVME, USB-C 3.1 Gen.2, 10Gbps (blac

Ref: 6954301166405

Enclosure SDD M.2 Orico, NVME, USB-C 3.1 Gen.2, 10Gbps (black)

Orico M2PV-C3-BK-EP SSD Case

Are you looking for small but functional tools that will make your work much easier? Orico's SSD enclosure is sure to meet your needs. It supports a transmission speed of up to 10Gbps and a capacity of up to 2TB, which gives you almost unlimited possibilities. It is made of durable materials and features excellent heat dissipation. Lightweight and compact, you can always carry it with you.

Copy your files in no time

The product is equipped with an advanced Realtek 9210 chipset and a universal USB3.1 type C output port. What does this mean in practice? The case allows you to transfer files at a speed of 10Gbps! You no longer have to wait endlessly for your photos, videos or documents to be transferred - with Orico it will only take a few moments.

Save lots of photos, videos or songs

The enclosure supports SSDs with a maximum capacity of up to 2TB. So you can successfully store everything you need. Whether it's 4K movies, Hi-Fi music or more than 200,000 high-quality photos, nothing stands in the way of having your most important files within reach!

Benefit from cost-effective solutions

Orico provides convenience and safety of use. You do not have to worry about unnecessary power consumption - after 10 minutes of inactivity, the case automatically goes into sleep mode. So it will not work unnecessarily - an extremely practical and economical solution.

It will serve you well for a long time

The case will surprise you with its durability. It is made of damage-resistant ABS plastic, and its upper part is covered with an aluminum alloy plate. The surface of the product was designed in such a way as to prevent overheating of the equipment. This not only makes the enclosure extremely durable, but also ensures excellent heat dissipation, providing your SSD with the necessary protection.

Compatible with your drive

Fear of hardware compatibility issues? Don't be! The enclosure supports M.2 NVMe SSDs in sizes 2230, 2242, 2260, and 2280. The versatility of the product makes it possible for almost anyone to use it, thus making it easier not only for you to work, but also to relax!

You can always have it on hand

Freely use your SSD and the files stored on it wherever you want. The enclosure is incredibly lightweight and measures only 108x29.5x13.5mm. So you can always have it on hand - it easily fits in your bag or backpack.
