BlackKnight Nextool multitool NE20151

Are you looking for a versatile tool that will be equally helpful during household chores and in the field? The Nextool multitool will be the perfect tool for you. You can use it in 11 different ways, so it will become your indispensable support when performing everyday tasks.

Multitool

Multitool NE20151 is a multipurpose tool, in which each tool is carefully thought out and easily accessible. Among other things, you will find a saw, nail file, knife, bottle opener, scissors or a knot tying tool. And that's not all Nextool can offer you! This tool will be comfortable to use because it is lightweight and small. You also don't have to worry about your safety - thanks to a special lock you can forget about accidental opening.

Bit set

In the set with the Nextool you will find a set of 10 bits. It includes H3/H5/H4 wrenches, #3/#5/#7 flathead screwdrivers, PH1/PH2/PH3 Phillips screwdrivers and a screwdriver sleeve. With such equipment, the Multitool will be suitable for any work both at home and during a camping trip.

Improved quality

The Nextool NE20151 Multitool has been improved as you will find, among other things, a full-size scissors. This will make cutting paper or cardboard even easier and more convenient. This tool was created with difficult tasks in mind. It can handle the challenges of camping or home repair work. In addition, it was made of the highest quality materials, which guarantees its durability and reliable performance.
