

## XERUN XR8 Pro G3 200A ESC

XERUN XR8 Pro G3 200A ESC

Ref: 6938994408660

XERUN XR8 Pro G3 200A ESC

The XERUN XR8 Pro G3 ESC (Electronic Speed Controller) for remote controlled vehicles is an upgraded version of the speed controller. Downsized by 15%, it features a powerful 200A output voltage. It is perfect for racing driving. It enables linear braking force, providing greater precision. Thoughtfully designed, the sensor has higher drive performance with lower operating temperature. The sensor provides protection against reverse polarity, overheating and has improved dust protection.

□Manufacturer

□Hobbywing

□Model

□XeRun XR8 PRO G3 Brushless ESC with sensor

□Current

□200A

□Input voltage

□2-4S Lipo

□Best compatibility

□XeRun 4268 4274 G3

□ Applications  
□ 1/2 Off-road, racing
