

Camera Akaso V50 Elite

Camera Akaso V50 Elite

Ref: 0810082449518

Akaso V50 Elite sports camera

Do you like extreme adventures and are you constantly on the move? Capture amazing moments and enjoy excellent quality of dynamic shots. You will be helped by the Akaso V50 Elite sports camera, which records in 4K/60FPS quality and takes 20 MP photos. The device supports voice commands and offers up to 8x Slow Motion, and you can also fearlessly immerse the camera at depths of up to 40 meters. That's not all - the V50 Elite provides excellent stabilization, 8x zoom and many useful modes.

Superb image quality

Enjoy the highest image quality during dynamic activities. The Akaso V50 Elite sports camera will allow you to do so, as it captures video in 4K/60FPS quality and takes 20MP photos. So you can capture your downhill skiing or tricks on your bike, and the V50 Elite will guarantee you a crystal clear image with a wealth of detail. The 6-axis gyroscope and EIS technologies are also a plus - they are responsible for effective stabilization.

Comfortable operation on the move

The device is designed to provide maximum comfort during dynamic activities and extreme adventures. Thus, at your disposal is a practical remote control, with which you can manage the operation of the device without using its interface. That's not all - you can also control the operation of the camera through voice commands.

Robust design

Take the camera anywhere and don't be limited by difficult conditions. The V50 Elite is distinguished by its rugged design and will perform well in the rain, surf or skiing. The advantage is also high impact resistance, moreover, you can immerse the camera at a depth of up to 40 meters (with a waterproof case) without worry. The touchscreen makes it easy to operate, while it is scratch-resistant.
