Filter ND1000 Freewell for Samsung Galaxy S23 Ultra

Ref: 6972971861048

Filter ND1000 Freewell for Samsung Galaxy S23 Ultra

Do you want to take professional photos? With Freewell it will be possible! ND filter will allow you to take amazing shots, as it effectively reduces the light entering the camera. Amaze your friends with beautiful photos that will take your breath away!

Thoughtful design

The ND1000 filter from Freewell is distinguished by its magnetic design, which will make its replacement very easy and only take a second! What's more, it was made of durable materials, so it features water resistance, dust and oil resistance and scratch resistance. You no longer need to worry about its safety! Now you will focus on what is most important - creating amazing shots.

An indispensable travel companion

Why should you use ND filters? They are an indispensable part of photographing with your phone, as they reduce the light entering the camera. By doing so, they allow you to extend the shutter speed to capture stunningly long exposures. Capture special moments for longer!
