

Computer case Darkflash DLM23 LED (white)

Computer case Darkflash DLM23 LED (white)

Ref: 6926170081349

Darkflash DLM23 computer case

The modern DLM23 computer case enables an effective cooling of your PC - you can install up to 5 fans. The built-in ports also allow the use of USB 3.0 transmission. The product impresses by its modern design. The tempered glass side panel can be opened easily and the A-RGB light strip on the front lends the case a unique character.

Carefully thought-out design

You no longer need to use tools to dismantle the case and replace parts. The magnetic side panel can be conveniently opened whenever you need it. The magnetic side panel can be opened whenever you need it and is made of tempered glass to display individual computer components. It also allows for excellent lighting effects. The product also stands out with its high-quality structure. But that's not all! The RGB light strip on the front of the case can be synchronised with your computer to enjoy an amazing spectacle of colours.

Optimal solutions - efficient cooling

Do not worry about problems with computer cooling. The vents on the right panel of the case not only do their job fantastically, but also look great. This model is compatible with various system components. For example, 2 120/140 mm fans for air cooling and a 240 mm fan for water cooling can be installed. In total, you can install up to 5 fans! The case is also equipped with an internal cooling duct.

Extensive expansion possibilities

But the possibilities do not end there! The model stands out for its wide compatibility, and its user-friendly design makes it easy to expand or upgrade your computer. Among other things, the case allows the installation of SATA 2.5 drives or a 210 mm power source.

Compatible with USB 3.0

Discover the advantages of the fast transmission of USB 3.0. The corresponding port on the top of the case provides you with even more convenience. It is also backward-compatible with USB 2.0 and comes equipped with HD audio and USB 2.0 ports, so you can adapt it to your needs and create the perfect PC for you!
