

PC Water Cooling AiO Darkflash TR240 RGB 2x 120x120 (black)

Ref: 6926170083107

PC Water Cooling AiO Darkflash TR240 RGB 2x 120x120 (black)

Water cooling 240 mm Darkflash TR240

With the TR240 you will take care of the proper cooling of your computer's processor. The device is characterized by reliable performance, and its modern design and colorful backlighting are eye-catching. You will also successfully synchronize it with the motherboard. The cooler guarantees optimal heat distribution, while surprisingly quiet operation. Compatible with AMD and Intel processors - its installation will not cause you any problems.

Optimal temperature

Creating TR240, excellent quality materials were used, which perfectly conduct heat. The efficiency area of the device has been increased thanks to the corrugated design of its fins. This also made it possible to provide more efficient cooling with built-in fans. Optimal heat distribution and exchange make the cooler ideal for keeping the CPU temperature at the right level.

Extremely quiet

Worried that an annoying noise will disturb your peace and prevent you from enjoying gameplay? No worries! The cooler's fans are designed to eliminate similar problems. Sound capture technology has made it possible to reduce air resistance and, consequently, the volume of the device.

Easy to install

Are you worried that the installation of the cooler will prove too complicated? Don't be! The device is compatible with certain models of AMD and Intel processors, and its installation will not cause you any problems. It is also possible to synchronize the TR240 with the motherboard.

A successful combination of functionality and aesthetics

The product is equipped with a cooling tube covered with a durable woven material. It not only provides greater safety of use, but also gives the cooler an interesting, stylish character. Darkflash brand devices combine exceptional functionality and attractive design.

Gaming backlighting

What else makes the TR240 stand out? Unique, stunning design! Spiral colored backlighting makes the device draw attention and surprises with its modern design. The water block was designed to make the cooler look even better. Do you care about original style effects? Combine the TR240 with other hardware with RGB!

The set includes:

Water cooling

INTEL & AMD mounting kit

Mounting screws

User manual

Thermal conductive paste

PWM connector

Producer

Darkflash

Model

TR240

Cooling type

Water

Color

Black

Number of fans

2

Fan dimensions

120x120 mm

Fan size

120x120x25 mm

Bearing type

Hydraulic Bearing

Fan speed

1800 RPM

Airflow

71 CFM

Maximum fan noise level

32 dBA

Dimensions of the heatsink

274x120x27 mm

Heat sink material

Aluminum

Pump dimensions

75x75x53 mm

Pump speed

2500 RPM

Maximum Noise level of the pump

23 dBA

Supply voltage

12 V

Maximum current

190 mA

Connector

4 Pin + 3 Pin

Backlighting

ARGB

Intel Compatibility:

LGA 775 / 1155 / 1156 / 1366 / 2011 (Core i3/i5/i7) AMD: AM4/FM2 / FM1 / AM3+ / AM3 / AM2+ / AM2

Weight

1.495 kg

TDP

230 W

Price:

€ 83.00
