

Filter CPL Freewell for DJI Mini 4 Pro

Ref: 6972971864636

Filter CPL Freewell for DJI Mini 4 Pro

Filter CPL Freewell for DJI Mini 4 Pro

Freewell filter designed specifically for DJI Mini 4 Pro models. CPL (Circular Polarizing Filter) optical filters are characterized by the fact that they reduce glare, improve color saturation and contrast, and increase depth of field. They are particularly useful in landscape photography, where glare on water, leaves, or windows is common. The filter stands out for its high-quality workmanship and has passed a number of tests to confirm its safety for your devices. You will also find a case for the filter in the set.

Take care of the high quality of your photos

This circular polarizing filter is designed to reduce reflected light from various surfaces while ensuring color neutrality. The lightweight CPL filter is coated with a special coating that ensures optimal image quality. Your photos can gain even more depth and will impress with natural, clear images!

GimbalSafe technology

Freewell is committed to high quality workmanship and subjects its products to rigorous testing, so you can rest assured that your drone will be safe. Each filter features an ultra-lightweight frame that won't weigh down your device or affect its balance.

Protective coating

For the best results when shooting outdoors, the filter has gained a special coating, making it dustproof and scratch-resistant. What's more, the oleophobic coating prevents greasy stains and fingerprints, so keeping the filter clean won't be a problem. You'll also find a case included for easy storage of the filter.
