

## CPU active cooling Darkflash L6 LED (heatsink + fan 90x90)

Ref: 6926170078066

CPU active cooling Darkflash L6 LED (heatsink + fan 90x90)

### Darkflash L6 active CPU cooler

Make sure your computer's CPU is properly cooled. The L6 cooler was designed to perfectly fulfill this task. As many as 6 heat pipes efficiently dissipate heat, and the copper base is characterized by optimal thermal conduction. The product is compatible with Intel and AMD processors and its installation will not cause you any problems. It also stands out with its stylish 4-color backlighting.

### Perfectly thought-out design - optimal cooling

What makes the Darkflash L6 so good at keeping your CPU cool? The cooler is equipped with a dual mini-tower, which has helped to greatly increase its efficiency. The 6 heat pipes instantly reduce high temperatures. What's more, the copper base is in direct contact with the CPU, increasing the effective area of the heatsink and providing better heat conduction.

### Efficient fan

The small 90mm fan surprises with its incredible performance. It works at speeds up to 2200rpm, guaranteeing optimal CPU cooling. Despite such high efficiency, L6 works extremely quietly - its noise level does not exceed 29.6dB. This is due in part to the high-end hydraulic bearings.

### Style backlight

The cooler will not only allow you to keep your CPU at the right temperature, but also allow you to give your computer a unique character. The 4-color fan backlight gives a beautiful glow and provides an amazing aesthetic effect. With L6 you can make your hardware look fantastic! For the most interesting results, use a case with transparent panels and other devices with RGB.

#### Free installation

Are you afraid that installing a radiator may be too complicated and time-consuming? Don't be! Installation of the device is not a major challenge. Darkflash L6 is compatible with selected Intel and AMD processor models - you can successfully install it into your computer and enjoy its reliable operation.

#### Brand

Darkflash

#### Model

L6

#### Dimensions

96.5x90x136mm

#### Fan dimensions

90x90x25mm

#### Fan speed

2200+/-10%RPM

#### Max. sound level

29.6dB(A)

#### Airflow

46.6CFM

#### Static pressure

2.56mm H2O

#### Bearing type

Hydraulic

#### Weight

510g (including fan/mounting kit)

#### Compatibility

Intel: LGA 775/115X/1366;

AMD: AM3/AM4;

#### TDP

150 W

Price:

Before: € 25.4979

**Now: € 23.51**
