

Filter ND32 Freewell for DJI Mini 4 Pro

Filter ND32 Freewell for DJI Mini 4 Pro

Ref: 6972971864650

Freewell ND32 filter for DJI Mini 4 Pro

Protect the camera lens of your DJI Mini 4 Pro and increase the quality of the shots you take. The ND32 filter effectively reduces the amount of light coming through the lens. The product is made of high-quality optical glass and aluminum alloy. It is also resistant to scratches, dust, and water. It is distinguished by its light weight - you do not have to worry about the load on your device.

Effective performance

Freewell's ND32 filter provides effective glare reduction, so you can easily take shots with natural colors and excellent contrast. The product also helps you control your camera's exposure settings when shooting or recording outdoors and offers 5-stop compensation to reduce the amount of light coming through the lens.
