

Filter ND1000 Freewell for DJI Mini 4 Pro

Filter ND1000 Freewell for DJI Mini 4 Pro

Ref: 6972971864674

Freewell ND1000 filter for DJI Mini 4 Pro

Protect the camera lens of your DJI Mini 4 Pro and increase the quality of the shots you take. With the ND1000 filter, you'll successfully capture stunning landscape shots and get soft and smooth effects of water or clouds. You will also easily capture the movement of cars, people, or animals and get the effect of even exposure, even on sunny days.

Effective performance

The Freewell ND1000 filter provides effective glare reduction, so you can easily capture shots with natural colors and excellent contrast. The product also helps you control your camera's exposure settings when shooting or recording outdoors and provides 10-stop compensation to reduce the amount of light coming through the lens.

Thoughtful design

The product provides protection against scratches, water, and dust. In addition, it was made of high-quality optical glass and aluminum alloy. In addition, it is distinguished by its light weight - you do not have to worry about the load on your device.
