

## Vacuum cleaner Deerma DX115C

Vacuum cleaner Deerma DX115C

Ref: 6955578034626

### Multifunctional vacuum cleaner

Deerma DX115C vacuum cleaner will allow you to clean your whole house quickly and conveniently. 2 ways of its use and up to 3 interchangeable brushes make it easy to adapt it to your needs. The state-of-the-art filtration system allows you to effectively get rid of dirt, while the copper motor, suction power of 14,000 Pa and power of 600 W guarantee high efficiency of the device. Additional advantages of the vacuum cleaner are its ergonomic design and 5-meter cable, which provides great freedom of action.

### 2 vacuum cleaners in 1

DX115C can be used as an upright or handheld vacuum cleaner. So it will be perfect for many different applications. With its help, you will conveniently vacuum the floors in all rooms of your home. Using it as a handheld vacuum cleaner, on the other hand, you can comfortably clean mattresses, keyboards, curtains, window sills and many other places. Deerma DX115C will allow you to get almost anywhere - no dust will hide from you.

### 3 brushes for different applications

In the set you will find 3 practical brushes with which you will thoroughly clean every corner. The floor brush works fantastically on different types of surfaces. It will vacuum both tiles or panels, as well as carpets or rugs. The crevice brush is suitable for cleaning sofa recesses, bookshelves and keyboards, among other things. The round brush, on the other hand, allows you to thoroughly clean curtains,

clothes or mattresses. (The bottom image shows the floor brush's wheels for easy guidance, as well as the vacuum cleaner's cord holder).

#### Effective dirt filtration

The vacuum cleaner is equipped with a HEPA filter, which helps prevent the spread of allergens and bacteria in your home. You can freely wash it under running water. The DX115C also has a special filtering sponge that traps dust. All waste is directed to the 1.2-liter tank. You can easily detach and empty it, reducing your contact with dirt to a minimum.

#### Quiet and efficient

A powerful copper-made motor is responsible for the efficient operation of the vacuum cleaner. It is distinguished by its long life and low energy consumption. Thanks to it, the device is not only effective, but also surprisingly quiet - its volume level does not exceed 76 dB. So if you are annoyed by the annoying noise produced by most powerful vacuum cleaners, Deerma DX115C will be an excellent choice.

#### Carefully considered design

When designing the vacuum cleaner, not only performance, but also user convenience was taken into account. The device is equipped with a 5 m cable, which allows you to clean an apartment of up to 80 m<sup>2</sup> with ease. You can easily roll it up and hang it on the designated built-in hook. The floor brush has additional wheels, making it easy to move, and the ergonomic handle of the vacuum cleaner provides increased comfort.
