Cup blender AMZCHEF 5003-GA (gray)

The AMZCHEF 5003-GA blender is a versatile appliance that will make it easy for you to prepare a variety of dishes and drinks. It also comes with a portable 600 ml blending bottle, so you can prepare instant smoothies for work. It's ideal for those who value a healthy lifestyle.

High power for efficient blending

With a total power of 1200 watts, the blender will allow you to grind a variety of ingredients - from soft fruits to hard nuts. The speed of 26,000 revolutions per minute ensures fast and even blending, so you'll prepare velvety smooth smoothies, sauces or creams.

Advanced blades for perfect results

Six 3D stainless steel blades create a vortex while blending for better results and ensure that every ingredient is blended thoroughly. This allows you to achieve the perfect texture of your foods and drinks and prevents annoying downtime when blending hummus, for example.

Two ways to blend

The AMZCHEF 5003-GA offers the unique ability to blend in two ways - both in a 1.85 L cup and in a portable bottle. This makes the

blender extremely functional and adaptable to a variety of needs - from preparing large batches to conveniently taking your favorite drinks on the go.

Convenient and intuitive operation

The blender was designed with ease of use in mind. A convenient control panel allows you to quickly adjust the settings to suit your needs, making it intuitive and fun to use.
