

Mechanical gaming keyboard with detachable numerical keypad

Ref: 6938820412588

Mechanical gaming keyboard with detachable numerical keypad Delux KM12+KN12 RGB

Mechanical gaming keyboard

Get outside the gaming keyboard box and choose the Delux KM12 with the additional Delux KN12 numeric keypad. Compact in its size and conveniently plug-and-play, it lets you freely set additional numeric key functions to enhance every online and offline duel. Hold the smaller keyboard standard or closer to your mouse for quick access to additional inventory or skills.

Durability for years

50 million clicks and OUEMU Blue switches will give you fast response and high resistance, for hours of entertainment, while the advanced anti-ghosting system allows you to press 24 keys simultaneously. Good for local keyboard battles. Macro keys will also help you in gameplay, and you can set them freely according to your needs.

Different backlight modes

Use one of the 9 backlight modes on the main keyboard and 7 backlight modes on the numeric keypad to create a matched pair to support you at all times. There's also a rainbow LED effect for a true gaming experience. Change the backlighting with the software or via keyboard shortcuts.

17 freely programmable keys

You will benefit from the capabilities of the numeric keypad not only in everyday use. Each of its 17 keys is programmable, giving you 17 different ways to create your own automation for any game or application. The keyboard is equipped with OUEMU Blue switches, giving you precise feedback and a crisp click to confirm your action.

Additional functionality

Like most modern keyboards, the Delux KM12 +KN12 is equipped with additional USB ports. You can plug in your headphones, mouse, as well as a pendrive or external drive, without having to reach for the back of your computer or under your desk. Everything is quick and easy.
