Earphones TWS Mcdodo Dynamic HP-7882 (pink)

Ref: 6921002678827

TWS Mcdodo Dynamic HP-7882 in-ear headphones (pink)

Enjoy fantastic sound quality with the TWS Mcdodo Dynamic HP-7882 headphones! Touch operation makes the headphones easy to use, and the lightweight design of the device guarantees full comfort. HP-7882 are compatible with 99% of devices, making them extremely versatile. Mcdodo headphones are not only functional, but also look great with their simple, elegant design.

### High quality sound

Discover previously unnoticed details of your favorite songs! The HP-7882 headphones provide HiFi-level quality, so they guarantee sound clarity and a better listening experience. In addition, the noise cancellation function allows you to be more immersed in the audio you are listening to and allows you to make phone calls comfortably. You no longer have to worry that your caller can't hear you!

### Ease of use

The Dynamic HP-7882 headphones are operated by touch. Double-clicking the left handset activates the voice assistant, and holding the same handset for 1.5 allows you to undo the song being played. Two clicks on the right handset causes the song to pause or resume, and holding that handset for 1.5 allows the next song to play. And double-clicking both handsets at the same time allows you to answer and

interrupt calls. Operation is simple, fast and convenient!

#### Convenience of use

The weight of one earphone is only 4g. The lightweight and ergonomic design means that even prolonged use of the equipment does not cause any discomfort! IPX4 protection guarantees water resistance, so you can use the headphones in the rain or during an intense workout without worry. The HP-7882 are also dustproof. The headphones automatically connect to your device when you open the case. Putting the headphones away again and closing the case automatically disconnects them.

#### Bluetooth 5.0

Bluetooth 5.0 technology provides stable interference-free transmission over a distance of up to 10 meters! You can enjoy music, movies and games without hindrance.

#### Long-lasting use

You can use the HP-7882 uninterrupted for about 5 hours - after that time, put it back in the case, which can charge the equipment another 4x, allowing an additional 20 hours of use. One full charge of the case is enough to use the headphones for up to a week! The time it takes to fully charge the headphones is 1.5 hours, and charging is done wirelessly. In standby mode, the headphones last up to 150 hours.

#### Thoughtful design

You can easily check the battery level on the case's screen. Intense green indicates that the device is fully charged. Soft green is an indication that the headphones are charged from 60 to 100%. Faded green indicates a charge of 33 to 66%. Black, on the other hand, is equivalent to a battery level of 0%.

#### Versatility

Mcdodo brand headphones are compatible with IOS, Windows and Android. You can connect them to phones, computers and laptops - any device that supports Bluetooth technology. This makes the HP-7882 headphones usable with up to 99% of devices. The possibilities are endless!
