Household Tool Set 38 pcs Deli Tools EDL1038J

Ref: 6973107487330

Household Tool Set 38 pcs Deli Tools EDL1038J

The Deli set contains 38 tools that you are sure to use. Whether you're assembling a cabinet, kitchen accessories or a lamp, the EDL1038J comes in handy in these and similar situations. All elements of the set are placed in a practical case, thanks to which their storage will be simple and convenient. The set includes: a knife with adjustable blade length, 10 spare blades, a 3 m long water and fire-resistant insulation tape, a 2 m long rolling tape measure, 2 screwdrivers with non-slip grip, stainless steel pliers, a carbon steel hammer, an adjustable wrench (8") with chrome finish, fire-resistant Teflon tape, nylon zip ties, set of 6 nickel-plated hex wrenches, stainless steel tweezers, scissors, stainless steel spirit level, set of hex sockets, and corrosion-resistant voltage tester for sockets from 100-500V.

Household Tool Set Deli Tools EDL1038J

The Deli set contains 38 tools that you are sure to use. Whether you're assembling a cabinet, kitchen accessories or a lamp, the EDL1038J comes in handy in these and similar situations. All elements of the set are placed in a practical case, thanks to which their storage will be simple and convenient. The set includes: a knife with adjustable blade length, 10 spare blades, a 3m long water and fire resistant insulation tape, a 2m long rolling tape measure, 2 screwdrivers with non-slip grip, stainless steel pliers, a carbon steel hammer, an adjustable wrench (8") with chrome finish, fire-resistant Teflon tape, nylon zip ties, set of 6 nickel-plated hex wrenches, stainless steel tweezers, scissors, stainless steel spirit level, set of hex sockets, and corrosion-resistant voltage tester for sockets from 100-500V.

Knife with breakaway blade and spare blades

You can use this knife to cut paper, pipes, leather material or boards. The ABS plastic finish and ergonomic design make it comfortable to use, and the durable SK5 blade guarantees precision. In addition, the knife is equipped with a special lock to avoid injury. It consists of 8 parts, so you can use it for a long time. All you have to do is to break off a part of the blade in a designated place when it is no longer sharp. To avoid cutting yourself, use the plastic guard at the end of the knife. If necessary, use the included carbon steel blades. The package contains 10 pieces of 15 parts each.

Insulating tape, Teflon tape, and tape measure

The set includes insulating tape, which you will use, among other things, to connect cable ends. It is resistant to fire, moisture and wear. Its length is 3m. The PTFE (Teflon) tape is useful for sealing pipe connections. In addition, it is resistant to corrosion. In the package you will also find a 2m measuring tape, which will be useful every day for various measurements. Its roll-up design makes it easy to store, carry and use.

Screwdrivers, pliers, voltage testers

The flathead screwdriver and Phillips screwdriver are made of durable materials. The matte grips are non-slip, which makes them very comfortable to use. The strong magnet at the end of the handle ensures stability. The pliers are made of Type 45 carbon steel, and the PVC plastic handle prevents the tool from slipping and is comfortable to use. The hardness level of the pliers is 54-62HRC, which guarantees precise cutting. The tester allows you to check the voltage from 100-500V. It is made of material with a hardness level of 40Cr. The nickel-plated finish provides strength and corrosion resistance. Additionally, its use is simple and convenient.

Adjustable wrench and carpentry hammer

The 200mm long adjustable wrench is made of steel and is corrosion resistant thanks to its chrome plated finish. It also has an adjustment function and is easy and convenient to use. The carpenter's hammer is distinguished by its robust carbon steel construction. The non-slip handle guarantees stability and comfort in use.

Precision screwdrivers, narrow tweezers, zip ties

The set comes with a set of 6 hex wrenches with orbital heads. They are suitable for measuring tools, watches, etc. Finished with nylon, they are durable and corrosion resistant. The narrow stainless steel tweezers resist bending and are durable thanks to the rubber cover. The cable ties are made of nylon and are highly resistant to fire. You can use them to connect bundles of cables, tubes, hoses, or wires.

Spirit level, scissors, hexagon socket set + screwdriver

The aluminum spirit level makes it easy to determine the level of a construction and allows you to mount a shelf, for example, correctly. Thanks to its aluminum and compact design, it is lightweight and convenient to use. The stainless steel scissors are sharp and ensure precise cutting, while the ABS handle is comfortable to use and prevents the scissors from slipping out of your hand. In the set you will also find a 6.3 mm knob and a set of 6 hexagonal sockets. They are made of chrome vanadium steel type 50BV30.

Included

- 1x Voltage tester
- 1x Tape measure 2m
- 1x Scissors
- 1x Insulating tape
- 1x Long straight nose pliers 160 mm (6 ")
- 1x 5x75 (mm) slotted screwdriver
- 1x Phillips screwdriver PH1 x 75mm
- 1x Knife with snap blade 18 mm
- 1x Spare blades 18 mm, 10 pieces
- 1x Claw hammer 0.25 kg

1x Adjustable wrench 200mm (8 ")
1x Teflon tape
1x Cable tie kit
1x Narrow tweezers
1x Spirit level 100 mm
1x Precision screwdriver sets (ph00, ph0, ph1, ph1.0 ph1.2 ph1.6 mm)
1x Knob for 6.3 mm sockets
1x 6.3mm hex socket set (4, 5, 6, 7, 8, 9, 10 mm)
