## Deli Tools Tool Bag EDL430113

Need a tool bag that combines functionality, capacity and extreme durability? Deli Tools EDL430113 is just for you! It has plenty of pockets and compartments, where you can put various equipment and accessories. Moreover, it is made of wear-resistant, puncture-proof material and special built-in steel bars keep the construction stable.

## Functionality first and foremost

The bag has been equipped with many pockets, both internal and external. This allows you to carry larger equipment and smaller accessories without worrying about them getting damaged during transport. EDL430113 will be a great addition to the equipment of every plumber, mechanic or decorator. Convenient handling is guaranteed by the thin, ergonomic handle.

## Well thought-out design

The Oxford fabric was used in production, which was additionally reinforced with a waterproof coating. This makes the product not only wear-resistant and puncture-proof. It will also not be damaged by exposure to water, giving you greater freedom of movement when it rains, for example. The construction is additionally stabilized by built-in steel bars, preventing deformation of the bag and minimizing the risk of damage to your tools. The bottom of the bag is also protected from getting wet - so you can rest assured that its contents are not at risk of getting wet.
