

Servo standard analogowe 1HI3115HS-645 MG

Servo standard analogowe 1HI3115HS-645 MG

Ref: 669962320436

Standard Analog Servo 1HI3115HS-645 MG

The standard 1HI3115HS-645 MG servo with metal gears features an increased torque, ideal for larger models such as cars in 1:10 and 1:8 scales. It is also suitable for various sizes of airplane models (up to 20-30 cc internal combustion engines) and boats. It is equipped with 2 ball bearings, achieving a torque of 7.7 kg/cm and a speed of 0.24s/60 degrees at 4.8 V.
