Edifier Hecate G33 gaming headphones

Professional headphones will open up new and interesting possibilities for you. Their lightweight design (260g) provides maximum comfort during use. The included detachable microphone allows you to communicate freely with other gamers. They owe their modern character to colourful RGB backlighting. Their low latency guarantees breakthrough clarity and stable transmission.

Stunning sound quality

Innovative technologies are sure to deliver a range of new, unforgettable immersive experiences. The 40mm neodymium drivers deliver high-quality 7.1 Surround sound, so you can hear your enemy's every move and prepare for their arrival. Go high-tech and get the edge right from the start!

Omni-directional microphone

The headphones feature a detachable omni-directional microphone. It provides effective voice capture so you can avoid miscommunication with your team. What's more, advanced noise cancellation effectively cuts out background noise in real time, while access to Xear2.0 software lets you change the sound of your voice (Magic Voice).

Attractive design

You don't have to worry about discomfort during long hours of entertainment, as their ergonomic shape will take full care of your comfort. The design weighs only 260g and the stylish RGB backlighting is responsible for the unique mood. Use the equipment as you are comfortable - without any noticeable discomfort, even for long sessions!
