Air Fryer LEACCO AF018

Ref: 6976261570016

LEACCO 5.5L 1200W non-fat fryer AF018

The LEACCO AF018 greaseless fryer is the perfect solution for healthy cooking enthusiasts. Offering a large capacity of 5.5 liters and 1200W of power, the device provides not only efficiency, but also versatility in preparing your favorite dishes. Equipped with modern technologies, such as 3D hot air circulation and 360° view, it guarantees excellent results with minimal use of fat. In addition, its ease of cleaning and intuitive operation make it ideal for any kitchen.

3D hot air circulation

The LEACCO AF018 fryer features 3D hot air circulation technology. This allows food to cook evenly, ensuring crispness on the outside while keeping the inside tender. This feature makes each dish not only tasty, but also healthy, reducing the need for extra fat.

Transparency and control

With the 360° view feature, users can view the dish from all sides without having to open the appliance. This not only makes it easier to monitor the cooking process, but also prevents heat loss, which is crucial for optimal results.

Ease of cleaning and safety

The basket, made of borosilicate glass, is not only food safe, but also easy to clean. Dishwasher-safe and a non-slip, stable base further

add to the convenience of the fryer.

Pre-set programs and DIY mode

The LEACCO AF018 fryer offers six pre-programmed modes for different types of food, including shrimp, steaks, fries, wings, fish and more. The device also offers a manual (DIY) mode for individual preferences. This allows you to experiment with different recipes, while guaranteeing easy and intuitive operation.

Innovative design and functionality

The device is distinguished by its modern design and intuitive keys for operation, making it easy to use the various functions. The special design of the baking grate and the heat-resistant basket handle provide additional functionality and safety during use.
