Ref: 689323784851

Aukey PA-B1L,USB-C, 30W mains charger (black)

Now you can charge your devices quickly and safely. The Aukey PA-B1L mains charger has been designed for devices equipped with a USB-C port. Its maximum charging power reaches 30W and it also supports fast Power Delivery charging. The compact and portable design makes the charger perfect for travelling.

Fast charging with 30 W

Don't waste your time with long charging hours! The mains charger supports charging with a maximum power of up to 30 watts, meaning that you will renew the energy of your chosen devices at an express pace. It also supports PD (Power Delivery) fast charging technology, so you can enjoy an even faster and more efficient charging process.

GaN technology

Discover the future of charging with Aukey! The charger uses innovative GaN technology, which guarantees faster and more efficient charging. The use of GaN has also reduced the size of the charger by up to 40% compared to standard chargers. As a result, you can take it with you on any journey - you can easily stow it in your bag or backpack.

For the sake of safety

The Aukey charger is equipped with multi-level safety features that guarantee comprehensive protection for connected devices. They effectively protect against overheating, overloading, overcurrent or short circuits. You don't have to worry about overcharging your devices either! Once your device has reached 80% charge, the charger slows down charging to prevent damage.
