Projector LCD Aukey RD-870S, android wireless, 1080p (black)

Aukey RD-870S LCD projector, android wireless, 1080p (black)

The Aukey RD-870S LCD projector is the perfect solution for lovers of the cinema experience at home. It supports 1080p resolution and provides a maximum image diagonal of 200", while the built-in speakers will enhance your immersion while watching movies. It allows you to connect wirelessly to a device of your choice using Miracast or iOS Cast, and has multiple input ports, allowing you to easily connect a variety of equipment.

A cinematic experience in your living room

Discover the world of entertainment on a whole new level! The Aukey projector offers unparalleled picture quality at 1080P resolution, providing incredibly crisp detail and a realistic experience. With a brightness of 320 ANSI lm, the image remains clear even in brightly lit environments. Its projection size ranges from 35 to as much as 200", allowing you to project images from a distance of 1.25 to 4.5m. Now you can create a truly cinematic experience in any room!

Many possibilities

The projector is equipped with a variety of input ports, such as USB, Micro-SD card slot, AV, HDMI and VGA, ensuring wide compatibility with various devices. You can effortlessly connect your laptop, games console, flash drive with your favourite movies or even your smartphone to share content on the big screen. Your possibilities are almost limitless!

Wireless freedom

With iOS Cast and Miracast support, users of different operating systems can share content seamlessly on the big screen. Working with Android TV, you are free to watch your favourite films or series on the many streaming platforms available, such as Netflix, YouTube or HBOMax. What's more, the wireless design and compact size will allow you to conveniently take the projector anywhere.

User-friendly

Gain full control of the image! The projector allows manual focus adjustment and vertical keystone correction of $\pm 15^\circ$. This means you can easily correct any errors caused by incorrectly positioned projector! In addition, a lamp life of up to an impressive 50,000 hours ensures that you will enjoy excellent image quality for many years to come.
