Monitor Koorui 27E1QA

Looking for the perfect monitor to be the perfect companion to any gaming experience? The Koorui 27E1QA features a 27-inch display that provides a wide color gamut for more realistic images. What's more, it provides low latency, as its response time is only 1 ms! It stands out with a refresh rate of 144 Hz, thus enabling smooth gaming sessions. Enjoy uninterrupted performance together with Koorui!

Perfect picture

The Koorui monitor provides a resolution of 2560 × 1440p, as well as an ultra-fast refresh rate of 144 Hz, which is compatible with most graphics cards. What's more, it features a 27-inch display and uses an advanced IPS panel, and its color gamut is DCI-P3 90% (which is equal to SRGB 100%). This makes its colors very vivid and realistic, with no fading. This makes it so that the image from any angle will have the same quality! In addition, FreeSync / G / Sync technology helps eliminate image tearing when working fast. Say goodbye to blurring and lag in first-person shooters, racing and strategy games.

Professional display

Are you betting on excellent image quality? Opt for the Koorui Monitor, which is equipped with a professional Retina QHD display that provides almost 40% more display area than an FHD display, while providing an amazingly sharp image, full of detail. You'll be able to display everything you need on this huge canvas! Enjoy crisp details and never be surprised by your opponent in a game again!

Created for game fans

Do you often play exciting clashes in the game? The Koorui 27E1QA will be perfect for you! This monitor combines a 144 Hz refresh rate with Adaptive Sync technology for smooth and uninterrupted gaming sessions. Want to see more detail? Use the gaming mode! HDR technology makes the image quality more detailed, most importantly, it helps you see more details in the dark. In addition, thanks to special technology, the monitor is able to effectively filter out harmful blue light, thus improving viewing comfort.

Thoughtful design

Koorui is not only a functional device, it is also a thoughtful and minimalist design. They stand out with an ultra-thin housing with a modern design. In addition, the stand has been created so that its installation is quick and easy, and what's more, it allows you to adjust the tilt. This makes it possible for you to use it the way you like it best.

Comfort of use

The 27E1QA was created with comfort in mind, which is why it is equipped with several different ports. You will find on it, among other things, two HDMI 1.4, HDMI 2.0 inputs and DisplayPort 1.2. This makes this monitor exhibit wide compatibility. It will work well with PCs, laptops, PS and Xbox consoles or TV boxes. This makes it suitable no matter what, whether you need a tool for work or entertainment!
