Smartwatch Haylou RS4 Plus (black)

Ref: 6971664931983

Haylou RS4 Plus Smartwatch

The Haylou RS4 Plus smartwatch is equipped with a large 1.78" AMOLED touchscreen. It will help you take care of your fitness - it offers up to 105 sports modes and functions such as heart rate and sleep monitoring, temperature measurement and stress level checking. It is distinguished by IP68 water resistance, and thanks to the magnetic strap it provides unparalleled comfort of use.

AMOLED display

Operating the smartwatch is extremely easy and enjoyable. The large AMOLED HD Retina 1.78" display is distinguished by a resolution of 368 x 448 pixels and a refresh rate of 60Hz. As a result, it provides a clear, readable image and allows you to use the smartwatch's features comfortably. You can also customize the appearance of the screen to your liking. Simply choose one of the many default dial designs or upload your own photo! There are also 3 menu styles available.

Comfort of use

Say goodbye to the hassle of fitting the watch strap size to your wrist. The RS4 Plus smartwatch has a magnetic clasp that not only makes it easy to take on and off, but also allows you to adjust it to your needs. The device is also extremely lightweight, comfortable, dustproof and water resistant to IP68. It can accompany you almost anywhere - for example, during training. Sweat or rain will not frighten it!

105 sport modes to choose from

Practice your favourite sport or try something new. The smartwatch lets you choose from 105 sport modes, such as running, cycling, skipping or badminton. It records exercise data in real time, so you can keep track of your progress and increase the effectiveness of your workouts. The device also counts steps, calories burned and distances covered.

Caring for your health

The smartwatch offers a range of functions to help you take care of your health. It monitors sleep and measures blood oxygen saturation. It also enables you to measure your heart rate up to 24 hours a day and will notify you of any alarming changes. It also checks your stress levels. It also has a built-in thermometer so it can measure your body temperature. All this will allow you to react quickly to alarming symptoms!

Even more functions

With Haylou you can make your life even easier. The smartwatch will notify you of incoming messages and calls - no more missing anything important! When you sit too long in one position, it will remind you to move. It also offers relaxing breathing exercises and supports Alipay payments. What's more, just lift your wrist to activate the screen.

Long run time

Despite having so many options, the smartwatch works for a really long time. It is equipped with a durable battery that has a capacity of 230mAh. Fully charged, it can work for up to 10 days with normal daily use or for up to 28 days with basic use. Say goodbye to the need to charge your devices too often!
