Haylou RT3 smartwatch

Provide unparalleled comfort during your daily activities! The Haylou RT3 smartwatch will allow you to keep track of your health - it monitors your heart rate, sleep, blood oxygen saturation and stress levels. It offers more than 100 different sports modes, allows you to manage calls and informs you of incoming notifications. It is equipped with an easy-to-read 1.43" AMOLED display. It provides a long operating time and is IP68 waterproof. Moreover, it features a modern and minimalist design.

More than 100 sports modes

The RT3 smartwatch will be your best companion during workouts. The device offers as many as 105 sports modes, which will provide you with the most important information about your workout. It will inform you about, among other things, the number of calories burned, heart rate, number of steps taken or distance covered. Among the available modes you will find, for example, soccer, running, cycling or climbing - you are sure to find something suitable for you!

Don't miss any notifications

Now no notification will escape your attention! Connect your smartphone to the smartwatch via Bluetooth and conveniently receive calls while working out at the gym or cooking - just lift your wrist. The RT3 will also let you know about incoming messages and notifications. Turn on the Always-on display function and keep an eye on all the most important information, i.e. the time or the charging status of the

watch.

Take care of your health

Keep your health under control. The RT3 smartwatch allows you to monitor oxygen levels in your blood - drowsiness and fatigue after intense exercise or work is a sign of insufficient oxygen in the body. It also allows you to monitor your heart rate for up to 24 hours a day. What's more, it will instantly inform you of detected abnormalities. The device also offers a menstrual calendar function, sleep quality monitoring or a respiratory training guide.

Large AMOLED display

Operating the smartwatch will not cause you any problem. It features a large, easy-to-read display, which is made of durable and damage-resistant 2.5D glass. It guarantees a clear and readable image in all conditions. You can also customize its appearance to suit your preferences by choosing from more than 100 dials available in the Haylou Fun app.

Carefully considered design

The watch is distinguished by its extremely lightweight design, weighing only about 50 grams - it is almost imperceptible during everyday wear. It is equipped with a special dial that makes it easy to operate the watch. The device also features IP68 water resistance, so you don't have to take it off when washing your hands or working out. In addition, the RT3 smartwatch looks extremely elegant, and will be an interesting addition to your daily styling.

Up to 20 days of operation

The product is equipped with a powerful 280 mAh battery, which provides up to 20 days on a single charge when using the basic mode. In turn, with daily use of the watch, using most of its functions, the working time of the device is 7 days. What's more, just charging it won't take long.

Even more possibilities

Use the smartwatch's additional features to make your daily tasks even easier. With the RT3, you can easily control the music playing from your smartphone - easily switch or stop songs. The device will also remind you to move after sitting in one place for a long time or help you find your paired phone.
