Haylou Solar Lite smartwatch (blue)

Looking for a versatile smartwatch to make your daily tasks easier? Haylou Solar Lite will be an excellent choice! It features a 1.38" color touchscreen display, which will make operation even easier. It allows you to choose from as many as 100 sports modes and offers many practical functions to help you take care of your health, including sleep monitoring, heart rate and blood oxygen levels. It features a waterproof design, and the modern, minimalist design will attract the attention of many users.

1.38" display

The smartwatch is equipped with a large 1.38" color display, which will give you quick and convenient access to all smartwatch functions. It guarantees a clear, easy-to-read image in any conditions! What's more, you can easily personalize its appearance to your preferences by choosing from more than 100 dial styles, which are available in the dedicated app, or upload your own photo.

As many as 100 sports modes

Do you want to take care of your fitness? Or are you looking to improve your performance? Whatever you want to achieve, the Solar Lite smartwatch will help you do it! The device offers up to 100 sports modes, so everyone will find something suitable for themselves. It will also inform you about calories burned, number of steps or heart rate.

Waterproof design

Now you can freely use your smartwatch in any conditions! Haylou Solar Lite is IP68 waterproof - it is not intimidated by raindrops, sweat or dust. You no longer need to take the watch off when washing your hands or doing an intense workout at the gym.

Your health assistant

With Haylou you can keep track of your health in real time. The smartwatch offers a menstrual calendar function, tracking blood oxygen saturation levels and monitoring your heart rate for up to 24 hours a day. What's more, when your heart rate is detected to be too high, you will receive an instant notification. The device also records your sleep data and will help you relax with breathing exercises.

Up to 20 days of operation

You don't have to worry about having to charge your smartwatch frequently! A powerful 240 mAh battery is responsible for the device's long working time. Fully charged, it can work for up to 20 days with basic use, and up to 10 days with daily use.

More possibilities

Use the full potential of the smartwatch and make your daily life easier. Haylou Solar Lite will instantly notify you of all incoming messages. All you have to do is pair it with your smartphone! You can also use the smartwatch to conveniently manage your music player or check the weather forecast.
