Camera backpack with solar panels Puluz PU5018B waterproof

Puluz PU5018B waterproof photo backpack with solar panels

Take care of the safe transportation of your equipment. The photo backpack will accommodate not only your camera, but also additional lenses and other accessories. The Puluz PU5018B is water resistant and was created with durable materials - you don't have to worry about damaging your equipment. In addition, built-in solar panels provide electricity to charge your smartphone or other small devices.

Capacious

Puluz PU5018B will hold everything you need for taking photos. You will successfully store in it a camera, max. 6 lenses, flash, 14" tablet, smartphone, water bottle, tripod and much more. What's more, special compartments will allow you to organize your accessories and keep things neat and tidy.

Solar panels

Your smartphone has discharged and you don't have a powerbank with you? No problem! The Puluz PU5018B backpack has built-in solar panels on the front pocket and USB port, so you get access to electricity no matter where you are. Their energy efficiency is 24%. This means you can charge the equipment you need at any time!

Waterproof and convenient

If you care about long-lasting comfort, then the Puluz PU5018B backpack will be perfect for you. It was created with breathable materials and is water-resistant, so you don't have to worry about flooding your gear in the rain. What's more, it has an additional strap that you can fasten on the front or use it to attach the backpack to the handle of your suitcase.
