

Smartwatch Zeblaze Swim (Gold)

Smartwatch Zeblaze Swim (Gold)

Ref: 6946639812413

Smartwatch Zeblaze Swim (Gold)

The Zeblaze Swim is a device that combines elegance with modern technology. Equipped with a 1.69-inch color display with a resolution of 240 x 280 pixels and Corning® Gorilla® Glass, it is the perfect combination of style and durability. Thanks to Bluetooth 5.0, the smartwatch easily synchronizes with smartphones running Android 4.4 or iOS 8.2 and newer, providing access to the Zeblaze Fit app. As a result, you gain your private command center on your wrist. The ability to immerse in water to a depth of 50 meters makes it ideal for swimming enthusiasts and other outdoor activities.

A New Look Every Day

The device is equipped with a large, colorful display, providing you with clear and vivid access to all information. Moreover, you don't have to stick to how it looks — it offers over 200 dials (available in the app), so you can change them every day to match the Zeblaze Swim to your outfit or mood.

Advanced Activity Monitoring

The smartwatch offers advanced activity tracking features, including GPS supported by four satellites, allowing for precise tracking of route and distance while running, cycling, or swimming.

Health Under Control

The device is equipped with a three-axis accelerometer and gyroscope, providing accurate motion monitoring. Continuous heart rate and blood oxygen saturation (SpO2) measurements will help you increase the efficiency of your workouts, while the sleep quality measurement and analysis function will ensure good, healthy rest. The Zeblaze Swim is also an effective assistant in tracking the female menstrual cycle.

Smart Daily Functions

With the smartwatch, you also gain a personal assistant in your daily activities. It offers numerous smart features, such as notifications from apps and incoming calls and messages on your phone, keeping you in touch with loved ones and colleagues. Moreover, the Zeblaze Swim will remind you to move if you sit for too long or to drink a glass of water if you forget. These small things will keep you organized like never before!

Performance Without Limits

The long battery life of the smartwatch (up to 30 days in power-saving mode) provides uninterrupted support in your daily activities. Quick charging (about 1.5 hours) means the device is always ready for action.

Take Care of Your Fitness in Various Ways

The smartwatch is equipped with a variety of physical activity modes, including dedicated profiles for swimming, running, walking, cycling, gym training, and team sports. Each mode provides detailed information such as distance, pace, calories burned, and heart rate range, allowing you to tailor your workout to your individual goals and needs. Train consciously and enjoy great fitness!

Solid Construction

The lightweight and durable construction with a TPU strap and aluminum elements ensures comfort wearing the smartwatch all day long. The Zeblaze Swim is also resistant to extreme temperatures from -40°C to 45°C, making it the perfect companion in all conditions — whether you're exploring winter landscapes or on vacation in the tropics, the Zeblaze Swim will perform excellently.

Additional Features

With the Zeblaze Swim, you can enjoy incredible comfort. The smartwatch also allows you to control music and the camera without having to reach for your smartphone. You can also check the weather for the next few days from your watch. A stopwatch, timer, and alarm clock are also at your disposal.
