Magnetic Car Mount for Phone Mcdodo CM-5060 (Stick-on Version)

Mcdodo CM-5060 magnetic car phone holder

Traveling by car can be much more comfortable, safe and convenient with the Mcdodo CM-5060. This innovative car mount is designed to provide you not only with reliable support while driving, but also with exceptional freedom and versatility. Learn more about this product and see why it is the perfect addition to your car.

Solid construction

Mcdodo CM-5060 is a mount that stands on a high level of durability and strength. Made of extremely durable aluminum alloy, it is prepared for extreme conditions on the road. Whether you're taking a long road trip or just driving to work, you can rely on the robustness of this product.

Strong magnets

One of the key elements that set the Mcdodo CM-5060 apart is its strong magnets. Thanks to the dual magnetic coil, the holder keeps your phone in place even during vibrations and bumps in the road. This ensures not only the safety of your device, but also stability.

Free adjustment

Every driver has his or her own preferences when it comes to placing the phone in the car. The Mcdodo CM-5060 gives you complete

freedom of choice - you can position your phone both vertically and horizontally. This means that whether you need GPS navigation or want to access your favorite apps, this mount will give you the optimal view and convenience.
