Ref: 5905316148819

4 Lens Filters Sunnlylife for AIR 3 - ND4/PL+ND8/PL+ND16/PL+ND32/PL (A3-FI686)

Sunnlylife A3-FI686 Lens Filters - ND4/PL+ND8/PL+ND16/PL+ND32/PL Set for DJI AIR 3

The Sunnlylife A3-FI686 lens filter set is designed for the DJI AIR 3 drone, enhancing its capabilities and delivering higher-quality footage. These filters are characterized by their lightweight and durable construction, as well as high-quality glass. Polarization can be adjusted by rotating the filter using the golden ring around it.

CPL Filters

CPL filters eliminate reflections from non-metallic surfaces, enrich colors, and highlight the beauty of the sky, clouds, and water. They are particularly useful for shooting through glass and above or below the water surface.

ND/PL Filters

ND/PL filters prevent overexposure, resulting in deeper and more saturated colors. Additionally, by reducing the shutter speed, users can capture razor-sharp details. Extending the shutter speed allows for capturing beautiful water shots by reducing polarized light.

Durable Coating

The lens's top coating is resistant to water, oils, and scratches, effectively protecting the camera lens from damage.

High-Quality Case

The filters come in an elegant black case with the manufacturer's golden logo. The interior features a tray made of soft EVA foam, providing safety and keeping the filters securely in place.

Quick Filter Installation

Installing the filters is straightforward—simply place them on the lens and twist to securely attach them.

Specifications

Brand Sunnyslife

Compatibility AIR 3

Single Filter Weight 4g

Material Aluminum Alloy, Glass
