Combo bag Sunnylife for DJI Mini 4 Pro (N4P-B698) Combo bag Sunnylife for DJI Mini 4 Pro N4P-B698

Sunnylife N4P-B698 bag for Mini 4 Pro

Sunnylife N4P-B698 is a high-quality bag that can hold all the necessary accessories. Its interior has embossed compartments for the drone, controller (additionally secured with a strap), charger and 5 batteries - thanks to this, the accessories lie stably in separate compartments, which prevents them from bumping against each other or scampering around the bag, as well as greater safety in case of shocks. The compartments will calmly accommodate the drone and controller with covers.

Safety at the highest level

The upper and lower parts of the case are separated by a wall covered with soft material, which prevents accessories stored in the upper part from scratching the drone or controller. The pocket is sewn with a mesh that allows the user to get a sneak peek of the contents, so they can quickly assess whether they've packed everything they need. The pocket is zippered to ensure that nothing falls out of it.

Convenient to carry

The bag for Mini 4 Pro is zippered with two zippers so you can open and zip it from either side. In addition, the bag has a handle allowing you to carry it in your hand, as well as belt hooks so you can transport it on your shoulder.
