Portable Label Printer Niimbot D101 (White)

Ref: 6972842745354

Portable Label Printer Niimbot D101 (White)

Niimbot D101 portable label printer (white)
The Niimbot D101 allows you to print labels without using ink. It works wirelessly and features a compact design. Its resolution is 203 dpi. It is compatible with rolls up to 27 x 70 mm in size. It connects to a compatible device via Bluetooth, and operation is facilitated by a dedicated app. What's more, you'll find a charging cable and one label roll included.

Useful for everyday use
The Niimbot D101 portable printer will make organization easier both at work and at home. You'll use the labels to label document folders, cables, food or cosmetic containers. It will also allow you to print product prices, mark them with EAN codes and expiration dates. What's more, the labels are free of harmful BPA.

Dedicated application
Operation of the printer is facilitated by the Niimbot app, which is compatible with Android i iOS. From it, you will print the contents of the labels with the font style and size of your choice, add emoticons, product barcodes, QR codes and tables. You can also create serial printing, product expiration dates, etc. Enjoy the freedom of use with the D101.

Lightweight and compact
