

Selfie Stick 110cm PULUZ For Insta360 X3

Selfie Stick 110cm PULUZ For Insta360 X3

Ref: 5905316149052

Selfie Stick 110 cm PULUZ for Insta360 X3

Selfie stick PULUZ is an indispensable tool for every filming and photography enthusiast. A durable aluminum alloy was used in its construction, so you can be sure that it will serve you well for a long time. The telescopic design allows you to adjust the length up to 110 cm, which gives you the opportunity to get perfect frames from different perspectives. The $\frac{1}{4}$ inch thread makes it easy to mount your sports camera on it.

Creativity at your fingertips

Enjoy the freedom to create photos and videos! In addition to the standard handle that allows you to hold and shoot comfortably, the Selfie Stick also has magnetic feet that, when unfolded, will turn the stick into a tripod. What's more, thanks to a special mechanism, you can easily record impressive bullet-time videos by shooting the camera horizontally at a constant speed.

Tailored to your needs

The selfie stick consists of 5 sections, which allows you to adjust the length from 28 cm (when folded) to as much as 110 cm (when unfolded). Each section can be locked individually, giving you full control over the length. Want to capture a whole group of friends in a joint photo? Now it's not a problem!
