

Backpack PolarPro Boreal 50L (black)

Backpack PolarPro Boreal 50L (black)

Ref: 817465027684

PolarPro Boreal 50L Backpack

The backpack is designed for harsh weather conditions. You can successfully pack the necessary equipment in it and head out for outdoor photo shoots. It stands out for its large capacity and solid workmanship. With pockets and compartments of various sizes, you will fit your camera, its accessories and much more. It also offers a special pocket for your laptop, while the hip strap and additional handles on the sides add to the comfort.

Durable

Take the Boreal 50L with you on any expedition. The backpack was created from a thick and water- and damage-resistant material, so you can be sure that the devices inside will not be damaged. What's more, the backpack's seams and straps have been tested for durability - its load capacity reaches 45 kg. So you can successfully pack your camera, lenses, accessories and additional equipment into it.

Capacious

The backpack is equipped with a main compartment with a capacity of 30 l. The 11 mm thick velvet compartments in it allow you to safely store various types of cameras, zoom lenses, etc. The Boreal 50 l also offers a pocket for a laptop, such as a 16" MacBook Pro, and a roll-up pocket with a capacity of 15 l - you can fit gloves, sweatshirt, jacket, etc. in it. In addition, smaller pockets allow you to store

your keys, documents, smartphone and much more.
