Insta360 hand grip

Free your hands and create spectacular videos from a first-person perspective. The Insta360 grip is compatible with many Insta360 camera models such as the ONE RS and ONE X2, for example. With an adjustable, wide band, you can easily fit it to your wrist and ensure the necessary stability. You can also use the accessory underwater without worry to create stunning underwater shots. The mount also allows you to rotate the camera 360° and tilt it up or down. This way you can easily get the perspective you want!
