

Wireless Gaming Controller iPega PG-9228

Wireless Gaming Controller iPega PG-9228

Ref: 6974363710446

iPega PG-9228 Wireless Controller / GamePad

Enjoy even more immersion with the iPega PG-9228. The controller connects to your device via wired or Bluetooth 5.0. What's more, it features built-in vibration motors and colorful backlighting. A phone holder and USB-C cable are also included. The GamePad works with Android, iOS and Windows operating systems. You will also successfully connect it to PS 3 / 4, Android Smart TV and Nintendo Switch.

Colorful backlighting

The iPega PG-9228 wireless controller is equipped with RGB backlighting, which gives it a real gaming feel. Choose from several available effects and enjoy a unique atmosphere during gameplay. You can adjust the backlighting to your liking with a dedicated switch.

2 connection possibilities

The iPega PG-9228 controller connects to a compatible device in 2 ways. You connect it to your computer or laptop using a cable with a USB-C port. If you're betting on a wireless solution, pair the controller with your hardware of choice via Bluetooth 5.0 and enjoy the PG-9228's smooth operation for up to 8 meters.

A higher level of immersion

Take your gameplay to the next level with the iPega PG-9228! The controller is equipped with 2 motors that respond to the events of the

game with gentle vibrations. What's more, it has a TURBO button, with which you will send a hail of bullets towards your opponent!

Phone holder

You will also find a phone holder in the set, which you can easily attach to the controller. Its extension range is from 55 to 85 mm, so it will fit a variety of smartphone models. Train travel, the way to work - now you can take your favorite games with you anywhere.

Wide compatibility

Don't be afraid of compatibility problems! The iPega PG-9228 wireless controller works with smartphones running Android or iOS operating systems. You will also connect it to your computer, laptop, Nintendo Switch, PS4/PS3 and Android Smart TV.

Long runtime

Enjoy up to 15 h of uninterrupted gameplay. The iPega PG-9228 wireless controller is equipped with an 800 mAh battery, which translates into a long runtime. In addition, it remains in standby mode for up to 30 days (if the battery is fully charged). On the other hand, you will renew the device's energy with the included USB-C to USB-A cable. After about 3 hours, the product will be ready to continue working.
