

Smart Water Heating Thermostat Avatto ZWT100 3A Zigbee Tuya

Ref: 6976037360087

Smart Water Heating Thermostat Avatto ZWT100 3A Zigbee Tuya

Avatto ZWT100 smart thermostat 3A ZigBee water heater TUYA

The Avatto ZWT100 smart thermostat is used to control heating at home, office, etc. It is equipped with an NTC sensor, which is responsible for temperature accuracy up to 1°C. Allows you to turn on or off the actuator that controls the supply of hot water for space heating. It has a built-in Zigbee module and works with Tuya, Smart Life, Amazon Alexa, Google Assistant, Yandex Alice, etc.

Program its operation

From the Tuya or Smart Life app, you can program the thermostat's operation. The device supports different temperature settings for a period of 5+2 / 6+1 / 7 days respectively with 6 time modes per day. You can also use manual and automatic modes.

Convenient control

You can control the Avatto ZWT100 smart thermostat in 3 different ways. The product works with Tuya and Smart Life apps, which you download to your smartphone or tablet. This allows you to adjust the operation of the product no matter where you are. It is also possible to control the thermostat through voice commands - the ZWT100 is compatible with Amazon Alexa, Google Home, Yandex Alice, etc. You can also use the product's touchscreen.

Access to the most important information

Another advantage of the Avatto ZWT100 is its LCD display. From it, you will learn about the set operation mode, connection to the network, set temperature or safety lock on. What's more, the thermostat displays the current time. You can also adjust the brightness of the screen or turn it off completely. This way you have all the most important information at your fingertips - just take a glance!

Additional features

The Avatto ZWT100 smart thermostat is equipped with a special child lock that prevents the use of the device. This will prevent you from turning on/off an unwanted function. In addition, it is possible to combine several ZWT100s into groups, for even greater control. You can also gain access to the device to other household members so that each of you can control it.
