Smartwatch Mibro Watch T1

Ref: 6971619678017

Mibro Watch T1 smartwatch

Looking for a versatile smartwatch that will come in handy on a daily basis? Mibro Watch T1 will be an excellent choice! The device will allow you to comfortably make phone calls (via Bluetooth) and offers many interesting features, for example, heart rate and sleep monitoring, alarm clock and weather. It also allows you to choose from 20 sports modes, and its convenient operation is provided by a color AMOLED display.

Stay connected

Take calls from the smartwatch and conveniently talk on the phone. You no longer need to reach for your smartphone every time! The Mibro Watch T1 will also notify you of incoming messages - it is compatible with popular apps such as Facebook, Twitter, WhatsApp and Instagram. You no longer have to worry about missing something important!

Plenty of useful features

Take advantage of additional smartwatch features and make your life easier. The T1 allows you to remotely control your phone's camera and music player, and can also act as an alarm clock, timer and stopwatch. You can also use it to check the weather forecast. There's also a do not disturb mode, screen lock and a function to help locate the smartwatch. What's more, the device counts steps, calories burned and more.

AMOLED color display

Bright, clear images, excellent quality and vivid, rich colors - these are just some of the advantages of the smartwatch's AMOLED display. It is thanks to it that you can enjoy comfortable operation of the device! Do you want to customize its appearance according to your preferences? No problem - choose one of the many available dial designs or use your smartphone to upload your favorite photo.

Enhanced design

The smartwatch is made of high-quality materials, so it looks great and is very durable. The device is also very lightweight and waterproof at 2ATM. You don't have to take it off your wrist when you want to wash your hands or go for a workout! An additional advantage of the watch is the convenient to use dial, which allows you to quickly switch its dials.

Take care of your health with Mibro

Now you can take better care of your health and react quickly to worrying symptoms. The smartwatch is equipped with a new heart rate sensor that allows you to monitor your heart rate up to 24 hours a day. The device also allows you to measure blood oxygen saturation. The T1 model will also help you improve the quality of your night's rest. Just use the sleep monitoring function!

20 sports modes to choose from

Choose from 20 available sports modes and get better and better results in your favorite sport. Aerobics, tummies, skipping, yoga, or maybe cycling? You're sure to find something for you! What's more, the smartwatch automatically detects running. When you finish your workout, the device will generate a detailed summary, which you can check in the app and share with your friends (a feature available only for some modes).

Durable battery

The smartwatch is equipped with a durable battery and a low-power consumption chip. It also uses an advanced algorithm that optimizes its operation. As a result, a fully charged device can serve you for up to 7 days with normal daily use, or up to 45 days in standby mode (when not in use or connected to an app). The T1 also lets you play music for about 5.5 hours or talk on the phone for about 5 hours.
