Indoor Wi-Fi Camera IMOU Turret SE 4MP H.265

Keep your finger on the pulse and feel safer in your home. The IMOU Turret SE 4MP camera captures video in QHD resolution, and with Night Vision, it provides high-quality images even at night. What's more, the device detects motion - when someone comes within its range, you'll receive a notification on your phone. You can also save recordings in various ways - for example, to the cloud or to a microSD card (up to 256 GB).

High image quality

You won't miss a single detail with the Turret SE 4MP. The camera delivers crisp, detail-saturated 4MP images, so you can see even more. The device also supports the H.265 codec, so you can record high-quality footage that takes up less storage space. There is also a Night Vision function for seamless monitoring even at night. Enjoy round-the-clock security!

Detects motion

No longer do you have to worry that an unauthorized person might be hanging around your home without you knowing about it. The Turret SE camera detects motion - if someone comes within its range, you'll get an instant notification with a surveillance photo. You can also set a detection zone using the app.

Various options for saving videos

The camera also allows you to save video - so you can view the surveillance record at any time, and share it with other family members or co-workers. You no longer have to worry about losing important evidence! The Turret SE model supports NVR and microSD cards of up to 256 GB. You can also save video to the cloud - along with the camera you get free access for 30 days.

Additional amenities

Forget about signal quality problems - the camera connects via Wi-Fi (2.4 GHz) for fast, stable and reliable transmission. In addition, the device has a built-in microphone, so it can record not only video, but also audio. Keep everything under control and be assured that you won't miss anything important!
