Gaming Headphones Motospeed H60 USB

Motospeed H60 Headphones

The comfortable to wear Motospeed H60 headphones provide superior audio quality and an amazing gaming experience. The 3D sound lets you fully immerse in the world of your favorite titles. With a high quality 50mm driver, you'll enjoy clear sounding audio and the bendable microphone lets you communicate freely with your friends and plan your in-game activities with them even better.

Even more immersion

The H60 uses the highest quality materials to create a 3D virtual audio experience. This, combined with the built-in 7.1 audio channel, results in a product that provides enhanced immersion while playing a game or watching a movie. It also enables you to have a better spatial sense and recognize the direction of incoming sound, so you can better hear your in-game rivals and react to their actions instantly.

User-friendly microphone

The included telescoping microphone is freely bendable for easy use. It also features noise-canceling technology on all sides for clear and pleasant voice communication. So you can talk comfortably with your friends or teammates in-game.

Ref: 6953460597402

Comfortable Use

The H60 is designed with user comfort in mind. Its light weight of 330g ensures exceptional comfort - even if you use it for long hours. The breathable plastic earmuffs are skin-friendly and pleasant to the touch. All this makes the headphones as comfortable to use as you can imagine.
