

Portable coffee maker 3-in-1 with case HiBREW H4-premium 8

Ref: 5907489609050

Portable coffee maker 3-in-1 with case HiBREW H4-premium 80W

HiBREW H4 Premium 3-in-1 Portable Coffee Maker

Get the ability to brew delicious, flavorful coffee wherever you go. The HiBREW H4 portable coffee maker is lightweight and portable enough to accompany you almost anywhere. It heats up quickly and has a pressure of 15 bar. It is equipped with a special cup, which was created from safe for health tritan. The machine is compatible with Nespresso and Dolce Gusto capsules and can also prepare ground coffee. In the set you will also find an AC adapter, a practical case and a foldable holder for coffee maker.

It can be carried with you at all times

Enjoy delicious, aromatic coffee wherever you are. The coffee machine H4 is extremely light and portable - it weighs only 600g, and thanks to its compact size you can easily fit it in your backpack or travel bag. So you can take it with you on vacation, under a tent, on a camping trip or to work. You no longer have to give up your favorite drink when you leave home! The device can be transported safely and comfortably in a case included in the set.

15 bars for great taste

The coffee machine stands out with its 15 bar pressure. It is also equipped with a high-performance heating element that disperses the heat evenly. All this makes it possible for you to prepare delicious coffee in no time at all, which will delight you with its rich aroma, velvety texture and excellent taste. What's more, the device allows you to brew both hot and cold.

Prepare your favorite coffee

HiBREW puts almost no limits on your ability to prepare just the kind of coffee you like. The H4 is compatible with Dolce Gusto and Nespresso capsules. It also allows you to brew ground coffee. Choose the beans you use every day or try something new! At home, at work, on vacation - with HiBREW you can prepare your favourite coffee in almost any situation.

Easy to use

With the H4 coffee maker, it's easy to make a delicious, aromatic beverage. Just put the capsule or ground coffee in the right place, fill the container with water, connect the device to electricity and press the button. After about 60 seconds your drink will be ready! It is also possible to make hot coffee using cold water. To do this, use the included AC adapter. Your coffee will be ready after about 5-8 minutes. You can also use the car charger. Note: when the device is connected via USB cable, the heating function is not available - in this situation it is only possible to brew coffee using hot water.

A practical mug

No need to carry extra glasses. The coffee maker is equipped with a small cup. It is made of high-quality titanium, a material that is also used to produce baby bottles. It does not contain harmful BPA and is safe for your health. All this means that you can comfortably drink a stimulating, aromatic espresso at almost any time.
