Meross Smart Desk lamp MDL110MHK (HomeKit)
Ref: 6973696561695

Meross Smart Desk lamp MDL110MHK (HomeKit)

Meross MDL110MHK smart desk lamp (HomeKit)
The Meross smart desk lamp will come in handy for pupils, students and employees. It generates eye-friendly light, the brightness and color temperature of which you can freely change. Thanks to its adjustable design, you can easily adjust it to your needs. It's also possible to operate the device remotely using the Meross app, Apple HomeKit or voice commands, among others.

Safe for your eyesight
Ensure optimal illumination when you're working or studying. The lamp generates a soft, vision-safe light that won't flicker, glare or tire your eyes. This makes it ideal for both adults and children. If necessary, you can also adjust the brightness of the light from 1% to 100% and its color temperature in the range of 2700-6000K.

Remote control
The device is compatible not only with the Meross app, but also with Apple HomeKit, Amazon Alexa, Google Assistant and Samsung SmartThings. Add it to the platform of your choice and gain the ability to remotely turn the light on and off, adjust its parameters, and even create work schedules. It's also possible to control the light with your voice - using the Siri assistant, for example.

Adjustable design

Mobilemax - Gadgets and Accessories

The light is designed to be perfect for users of almost any age. Its tilt can be adjusted up to 180° - position it to optimally illuminate your keyboard or notes. If you temporarily don't need it, simply fold it up to take up even less space.

Delightful design
The product is made of excellent quality aluminum alloy, which provides it not only with strength and resistance to damage, but also with more efficient heat dissipation. At the same time, the lamp looks really great - thanks to its minimalist, modern design, it will appeal to many users and can be a fantastic addition to the desk.

Included
